### May Open Door to China.

Washington, April 28.—Negotiations for a Chinese immigration treaty have been abandoned for the present, but will be resumed by Minister Rockhill in China.

An intimation is given in the official circles that the law, as it stands at present may be open to successful legal attack. If the attack should be

made by some of the organizations in this country interested in Chinese immigration and carried to successful issue in the United States supreme court, the result, in the absence of a treaty, would be a flood of Chinese immigration to the United States.

The less a man says the more he means it.

### 8,000 MEN

Are Well Organized and Working on the Panama Canal.

Chicago, April 28.—Speaking of the actual physical work of building the Panama canal, Mr. John F. Wallace, chief engineer of the Panama commission, said that an organization has already been formed, embodying a total of 8,000 men. Of this number practically six thousand men are engaged in equipment and construction work and 2,000 men are engaged in policing the canal zone and in sanitary work and in cleaning up the isthmus. This organization will be rapidly increased and has been increasing at the rate of from 800 to 1,000 men a month.

Of the total number of men employed about 10 per cent. are high-class men from the United States, and the rest are mechanics, artisans and laborers that have been brought from the nearby South American and Central American coast and from the West India Islands.

There is a demand for men expert in the mechanical trades, for instance, steamshovel men, draughtsmen, railway track foremen, engine men, carpenters skilled in heavy timberwork and in the construction of dredges and bridges.

In addition to the repair of the residences, about 2,400 of which were constructed by the French eight three-story hotels are being constructed at various centers of population, the purpose being the accommodation principally of the unmarried American men engaged in the work. Two of the hotels are completed. Material has been ordered and arrangements made for the remaining six. The hotels are provided with bath rooms and all modern necessary hotel appliances.

Up to date seven American steam shovels have been installed and ten more are on the isthmus already in course of erection, or are on the way there, and twenty-four additional shovels have been asked for from the commission.

### City Hospital Furnishing.

It is likely that the matter of furnishing the new city hospital will come up at the meeting of the joint finance committee this evening at the city hall. The committee is to ascertain the cost and the funds available, and when these are learned, something may be done towards furnishing the hospital, which for several weeks now has been finished but of no more use to the city than if it had never been built.

### Mayfield Market.

Loose tobacco has been coming in large quantities during the season this week.

On the breaks business is dull. Only twelve hogheads of leaf were offered Tuesday and only six hogheads sold. Those were bought by Mr. Oscar Banks of Paducah, at prices from 5 1/4 to 6 1/4 cents. He seems to be the only buyer on the breaks wanting tobacco and is satisfied with very small quantity. Monitor.

## LETTERS RULED OUT

IN THE THIRD TRIAL OF NAN PATTERSON IN NEW YORK.

Widow of the Dead Man Was on the Stand Most of Yesterday.

New York, April 28.—Julia Smith, sister of Nan Patterson, was on the stand again today, and questioned sharply concerning the letter she wrote Young shortly before the tragedy, saying she would not be responsible for what Nan did. Recorder Goff refused to allow the letter in evidence.

Mrs. Margaret Young, widow of "Caesar" Young, was on the stand yesterday, and as she testified her eyes would fill with tears. Nan Patterson dropped her eyes when she saw the widow and did not raise them again until the recess. Josiah D. Millin, Young's partner, was another witness and told of the relations between Young and Nan Patterson.

The prosecution endeavored to introduce in evidence a letter purporting to show that Miss Patterson had had other admirers at the time she professed to be devoted to Young. This letter, however, was not admitted as evidence. The letter that Mrs. J. Morgan Smith, sister of the defendant, wrote to "Caesar" Young, in which she said Miss Patterson was "frantic" and which was admitted at the previous trial, was also ruled out. A conspiracy charge against the Smiths was based on the letter.
